GAZETTEER TO AMS 1:25,000 MAPS OF EAST GERMANY

Names in this gazetteer appear on AMS 1:25,000 scale AMS M841 (GSGS 4414) maps of East Germany. The index at the back of this gazetteer indicates the location of the sheets.

COLUMN I, Name.—Names are listed in the form in which they appear on the maps, alphabetized to 16 places. Alphabetization was accomplished in the following sequence: space, period, ampersand, hyphen, diagonal, comma, apostrophe, letters of the alphabet and numeric characters 0 to 9.

Example:

KLEIN BERG	KLEIN - KARLE	KLEIN' FEN
KLEIN. AUMAN	KLEIN/GOLDACH/	KLEINE
KLEIN & KLEIN	KLEIN, GRUND	9 KLEIN

Note: Parentheses are represented by diagonals. (See listing immediately above.)

COLUMN II, Designation.—Code designations in this column describe the feature to which the name applies. For the key to the code designations used, see the accompanying LIST. Code designations have been limited to four letters or less.

COLUMN III, Grid Ref.—The grid reference for each name consists of a two-letter 100,000 meter square identification,

followed by a four-digit number. The grid reference may be used to locate the named feature on the maps, in the following manner.

First, locate the north-south grid line labeled with the two large figures (ignore the smaller figures) corresponding to the first two digits of the grid reference in the gazetteer. Second, locate the east-west grid line in the same manner as the north-south line, but using the last two digits of the grid reference in the gazetteer. The named feature will be found to the east and north in the immediate vicinity of the intersection of these two grid lines. (The two-letter 100,000 meter identification is to be ignored.)

COLUMN IV, Sheet No.—Sheet number identifies the map on which the named feature falls.

COLUMN V, Lat.—The latitude of the named feature is given to the nearest minute, as computed from the scaled grid reference.

COLUMN VI, Long.—The longitude of the named feature is given to the nearest minute, as computed from the scaled grid reference.

CODE DESIGNATIONS

AN area name	FRST . . . forest	RSVR . . . reservoir
ANCH . . . anchorage	FTRY . . . factory	SAND . . . sandy area
BAPL . . . bathing place	GRGE . . . gorge, defile	SCHL . . . school, college, university, academy
BAR . . . barracks	HOSP . . . hospital	SCRB . . . scrub
BEAC . . . beacon	INLT . . . inlet	SDLE . . . saddle
BLDG . . . building, castle, house, hut, cabin, lodge	ISL . . . island	SHR . . . shrine, cross
BRDG . . . bridge	LCKS . . . locks	SIGS . . . signal station
CARN . . . cairn(s)	MDW . . . meadow	SITE . . . historical site, historical ruins
CEM . . . cemetery	MONU . . . monument, triangulation station	SLP . . . slope
CHCH . . . church	MRSH . . . marsh	SPRG . . . spring
CHNL . . . channel	MT mountain (s)	SQ square
CLIF . . . cliff(s)	NAMK . . . navigation marker	ST street

FORT . . . fortification, earthwork, redoubt, stockade	RSTA . . . railroad station	

RÉPERTOIRE GÉOGRAPHIQUE DES CARTES DE L'ALLEMAGNE ORIENTALE DE L'AMS AU 25,000 ème

Les noms de ce répertoire se trouvent dans les cartes de l'Allemagne Orientale au 25,000 ème, série AMS M841(GSGS 4414). La location des feuilles est indiquée par le tableau d'assemblage situé à la fin du répertoire.

COLONNE I, Nom.—Les noms sont enregistrés dans la forme dans laquelle ils se trouvent sur les cartes par ordre alphabétique jusqu'à la 16 ème lettre. L'ordre alphabétique est le suivant; espace, point, &, tiret, diagonale, virgule, apostrophe, lettres de l'alphabet et chiffres de 0 à 9.

Exemple:

KLEIN BERG	KLEIN - KARLE	KLEIN' FEN
KLEIN. AUMAN	KLEIN/GOLDACH/	KLEINE
KLEIN & KLEIN	KLEIN, GRUND	9 KLEIN

N.B. Les parenthèses sont représentées par des diagonales, comme ci-dessus.

COLONNE II, Code.—Le code dans cette colonne décrit la particularité topographique à laquelle se rapporte le nom. Le code employé se trouve dans la LISTE ci-jointe. Il se compose de quatre lettres ou moins.

COLONNE III, Quadrillage.—La numérotation du quadrillage consiste en une identification du carré de 100 Km de côté, à deux lettres, suivie d'un nombre à quatre chiffres. Pour

trouver la location d'une particularité topographique nommée dans la carte on peut se servir du quadrillage de la façon suivante: Premièrement, trouver la ligne du quadrillage Nord-Sud écrite en chiffres gros (il ne faut pas utiliser les chiffres plus petits) et correspondant aux deux premiers chiffres de la numérotation du quadrillage dans le répertoire. Deuxièmement, trouver la ligne de quadrillage Est - Ouest de la même façon que la ligne Nord-Sud en se servant des deux derniers chiffres de la numérotation du quadrillage dans le répertoire. La particularité du terrain nommée se trouvera à l'Est et au Nord dans le voisinage immédiat de l'intersection de ces deux lignes de quadrillage. (Il ne faut pas utiliser la désignation de 100 Km à deux chiffres.)

COLONNE IV, Numéro de la feuille.—Le numéro de la feuille identifie la carte dans laquelle se trouve la particularité topographique nommée.

COLONNE V, Latitude.—La latitude de la particularité topographique nommée est donnée à une minute près, calculée d'après la référence au quadrillage à l'échelle.

COLONNE VI, Longitude.—La longitude de la particularité topographique nommée est donnée à une minute près, calculée d'après la référence au quadrillage à l'échelle.

CODE

AN nom de région
 ANCH . . . mouillage

ORTSNAMENVERZEICHNIS FÜR DIE AMS KARTEN VON OSTDEUTSCHLAND, MASSSTAB 1: 25,000

Die Namen in diesem Ortsnamenverzeichnis erscheinen auf den AMS Karten von Ostdeutschland, Massstab 1:25,000, AMS M841 (GSGS 4414). Aus dem Übersichtsblatt hinten in diesem Ortsnamenverzeichnis ist die Lage der Kartenblätter zu ersehen.

Spalte I, Name.—Die Namen sind in der gleichen Schreibweise verzeichnet in der sie auf den Karten erscheinen und zwar alphabetisch bis auf 16 Stellen geordnet. Die alphabetische Ordnung ist folgendermassen ausgeführt: Zwischenraum, Punkt, & Zeichen, Bindestrich, Querstrich, Komma, Apostroph, Buchstaben des Alphabets und Zahlen von 0 bis 9.

Beispiel:

KLEIN BERG	KLEIN - KARLE	KLEIN' FEN
KLEIN. AUMAN	KLEIN/GOLDACH/	KLEINE
KLEIN & KLEIN	KLEIN, GRUND	9 KLEIN

Bemerkung: Statt Klammern stehen Querstriche (siehe Beispiel unmittelbar oben).

Spalte II, Bezeichnung.—Die Schlüsselbezeichnungen in dieser Spalte beschreiben die Objekte zu denen die Namen gehören. Als Erklärung zu den Schlüsselbezeichnungen dient die beigefügte LISTE. Schlüsselbezeichnungen beschränken sich auf vier Buchstaben oder weniger.

Spalte III, Gitterbezeichnung.—Die Gitterbezeichnung für

jeden Namen besteht aus zwei Buchstaben, die ein 100,000-Meter-Quadrat angeben und denen eine vierstellige Zahl folgt. Die Gitterbezeichnung dient dazu, das genannte Objekt auf den Karten wie folgt aufzusuchen:

Erstens, die nord-süd Gitterlinie aufsuchen, die mit zwei grossen Zahlen beziffert ist, welche den ersten zwei Stellen der Gitterbezeichnung im Ortsnamenverzeichnis entsprechen (die kleineren Zahlen unbeachtet lassen). Zweitens die ost-west Gitterlinie in gleicher Weise wie die nord-süd Linie aufsuchen, doch unter Benutzung der zwei letzten Stellen der Gitterbezeichnung im Ortsnamenverzeichnis. Das betreffende Objekt findet sich östlich und nördlich in unmittelbarer Nähe des Schnittpunkts dieser beiden Gitterlinien. (Die zweibuchstabige 100,000-Meter-Bezeichnung ist unbeachtet zu lassen).

Spalte IV, Blattnummer.—Die Blattnummer bezeichnet die Karte auf die das genannte Objekt fällt.

Spalte V, Breite.—Die geographische Breite eines genannten Objekts ist bis auf die nächste Minute angegeben und nach der Teilung der Gitterbezeichnung berechnet.

Spalte VI, Länge.—Die geographische Länge eines genannten Objekts ist bis auf die nächste Minute angegeben und nach der Teilung der Gitterbezeichnung berechnet.
